

The citizens of this nation are looking for something better than a free-for-all by the corporate media in our towns and cities. True Democracy, not what we have fed by that same corporate media, is at stake, and if you commissioners vote to relax media ownership rules on June 2 (as you have planned), you are ensuring that the streets are the last refuge of truth; not one cop, not one soldier, not one Gestapo agent can ever change that. We are demanding that you uphold the public interest in OUR airwaves.
